Picture the Homeless is an award-winning, ten-year-old organization that brings homeless people together to make the system work better. Our organizing work has resulted in countless positive changes for homeless folks! We have: *proved* that there are enough vacant buildings and lots in Manhattan to house every homeless household in NYC; *forced* the NYPD to issue a policy of not selectively enforcing the law against homeless people; *helped* shut down the horrible EAU; *got* the disastrous HSP housing subsidy abolished; *fixed* some of the worst problems with the way the city buries homeless people who pass away, and *eradicated* a key tax incentive for greedy landlords to keep their buildings empty!
